

## GCN International GC Peer-to-Peer Group

Tuesday, June 14th - 03.00 pm to 06.00 pm

### The E of ESG and how it impacts our organizations and our role as General Counsel

Societal expectations regarding corporates' role in environmental matters are changing rapidly. Climate litigation risks are imminent in near all sectors, and environmental legislation is rapidly expanding to new areas, such as supply chain due diligence requirements. How will new environmental regulations impact businesses, and what can GCs do to mitigate risks?

We will meet at a wonderful location at the waterside in Amsterdam and opposite the Amsterdam Central Station, the EYE Film Museum. There will be plenty of time to re-connect, network, and talk.
